**KADS Committee Meeting
Wednesday 13th May 2020
Virtual Meeting due to COVID19**

Lockdown Update

Government has brought out a new statement and trying to put together a club stance. EA has given guidance previously on what clubs should do and we have followed this so far. They are in the process of updating this guidance now. KADS will stay as we are for now until further guidance is published. KADS Chit Chat should remain in line with what the government are saying.

gov.uk guidance is pinned to the top of the chit chat page until EA has published their guidance.

Renewals

We have had 95 people renewed so far, a final reminder will be sent out with a week deadline to renew due to current circumstances.

Goose Fair Gallop

GFG team have been in touch with lots of people and places to try and get GFG to happen this year, but due to the current climate, this has not been possible to get responses and things set up in time.

Awsorth run has been postponed to the same day, along with the London Marathon. Lots of races have been postponed until the end of the year so makes for a busy racing month if they are to go ahead.

General consensus is that we postpone the race to next year so have a bigger and better event.

Events Calendar

We've had lots of events recently. Aiming to do a social event a week along with a structured/map run seems to be going well.

Currently have the Everest Challenge this week; need to think of plans for next week.

Wheel of Doom - the idea would be to have a wheel that could spin with different challenges on to have daily challenges for a week.

To have a more relaxed challenge this week to compliment the Everest Challenge this week.

Route Art for this week.

Run Leader

Kirstie has had an email as run leader for online courses that she can take part in, some with big discounts on - she will forward to our run leaders and Rachelle will put a message in the WhatsApp group

Future meetings

At the moment we will have fortnightly meetings.
