**KADS Committee COVID19 Meeting
Tuesday 28.09.20
Virtual Meeting due to COVID19**

Attendees: LT, EW, RS, DT, MD, JB, CC, KH
Apologies: ET, MG

Covid Action Plan

The Covid Action plan had been circulated. It was agreed that the covid officer should not be the sole go to person, but for all committee members to discuss and decide on rather than one person making sole decisions. This will be communicated to the club.

Track Night

The committee would like to get track night back up and running but we will need to speak to Rutland first to find out what measures they have in place and if we are able to use it. Nicola Chamberlain has offered to act as a point of reference as she works for the centre. We have previously shared the track with another club, so this is something we would need to check with the track to see if they have processes in place for this. If the track is covid secure, we can have a ratio of 1:12 run leader/runners

Colliers Wood

The idea of restarting Colliers Wood was discussed as this is a missed KADS event. The meeting area for Colliers wood could be an issue for gathering, and as there are loops this could cause people to pass. There is the concern over public perception and potential complaints; the committee doesn't want to do anything to potentially destroy relationships with Friends of Colliers. We would need to ensure that we have all the risk assessments in place and mitigations documented.

Led Runs

Run leader aspect of the led runs is ensuring that everyone sets off okay and get back okay. It was decided to focus on Track Night before expanding on led runs as this would be quicker to solve.

Committee Roles

Steve has resigned from his Handicap role and Daz/Kirstie have resigned from the Goose Fair Gallop role.

GFG - there is a lot of planning involved with the GFG and there is concern that there may not be the opportunity to race next year. A subcommittee would be ideal to look into this

Handicap

Handicap starts in Spring/Summer so there is no immediate rush to fill this role

Health and Safety Policy

EA have said that off road runs can be done in the winter as long as there has been a risk assessment of the route and members are all wearing torches. Our health and safety policy states no unlit roads so this would need updating in line with this. Members would need to be told about being aware of footing and the chance of twisting ankle/falling over etc is higher and explain that it is off road and unlit

Next Meeting

Thurs 15th Oct 8pm
